Programming Languages: Python, C, C++, R

Web & App Development: HTML, CSS, JavaScript, Flutter (Basics)

Database: SQL (Intermediate), MongoDB, DBMS

Tools & Software: Tally Prime, MS Excel, Git, VS Code

designing tools: Figma, Canva, photoshop

WORK EXPERIENCE

Full Stack Developer Intern | Frontier Wox Tech Pvt. Ltd. May 2026

Project: Smart College Asset & Inventory Management System | Stack: React.js, Node.js, Express.js, MongoDB

- Developed a centralized web-based system to manage college assets, replacing manual paper-based tracking with a digital platform supporting role-based access for Admin, HOD, Lab In-charge, and Staff.
- Built RESTful APIs with Node.js and Express.js secured via JWT authentication, and designed a multi-level asset request and approval workflow with automatic real-time inventory updates upon issuance.
- Developed role-specific dashboards and a reporting module; deployed the frontend on Vercel and the backend on Render with MongoDB as the database.

Assistant Merchandiser | BAAS Exports, Tirupur may 2024

- Coordinated export orders and production schedules to meet international buyer deadlines.
- Managed buyer communication and ensured timely delivery and quality compliance across multiple product lines.

PROJECTS

Personal Portfolio Website | Individual Project

Tech Stack: HTML, CSS

- Developing a personal portfolio to showcase projects, skills, and certifications with a clean responsive layout.

- Implementing responsive design principles for cross-device compatibility.

Weather Application | Individual Project

Tech Stack: firebase / Flutter

- Built a weather app that fetches real-time weather data using an open API based on user-provided city input.
- Displayed temperature, humidity, and weather conditions with a clean UI.

Clock Application | Individual Project

Tech Stack: Python / Flutter

- Developed a digital clock application with live time display and practiced event-driven programming fundamentals.

Interactive Valentine Website | Creative Project

Tech Stack: HTML, CSS, JavaScript

- Designed an interactive themed web page with animations using vanilla JavaScript DOM manipulation.

RESEARCH & INNOVATION

AI in Recruitment – Research Paper | Team of 5

2025-26

- Explored AI-driven hiring systems, candidate screening automation, and the impact of AI on HR efficiency and bias reduction.

Impacts of Digital Payment – Research Paper | Individual

2024-25

- Analyzed economic, consumer, and business impacts of digital payment adoption in India including UPI and mobile wallet trends.

R-CUBED – Innovative Business Model | Team of 5

2026

- Proposed a sustainable waste management ecosystem focused on reduce, reuse, and recycle; presented at a college-level innovation event.
