CAREER OBJECTIVE

MCA student with a B.Com (Computer Applications) background and experience in web development, business operations, and research projects. Seeking an entry-level IT or data role to apply technical, analytical, and problem-solving skills.

EDUCATION

Master of Computer Applications (MCA) | St. Joseph's College, Tiruchirappalli — *2025 – Pursuing*

B.Com – Computer Applications | St. Joseph's College, Tiruchirappalli — *2022 – 2025*

TECHNICAL SKILLS

Programming Languages: Python, C++, R (Basics)
Web & App Development: HTML, CSS, JavaScript, Flutter (Basics)
Database: MongoDB, DBMS
Tools & Software: Tally Prime, MS Excel, Git, VS Code
Design Tools: Figma, Canva, Photoshop

WORK EXPERIENCE

Full Stack Developer Intern | Frontier Wox Tech Pvt. Ltd. — *May 2026*

Project: Smart College Asset & Inventory Management System | Stack: React.js, Node.js, Express.js, MongoDB

- Developed a centralized web-based system to manage college assets, replacing manual paper-based tracking with a digital platform supporting role-based access for Admin, HOD, Lab In-charge, and Staff.
- Built RESTful APIs with Node.js and Express.js secured via JWT authentication, and designed a multi-level asset request and approval workflow with automatic real-time inventory updates upon issuance.
- Developed role-specific dashboards and a reporting module; deployed the frontend on Vercel and the backend on Render with MongoDB as the database.

Assistant Merchandiser | BAAS Exports, Tirupur — *May 2024*

- Coordinated export orders and production schedules to meet international buyer deadlines.
- Managed buyer communication and ensured timely delivery and quality compliance across multiple product lines.

PROJECTS

Skycast Weather App | Individual Project
Tech Stack: Flutter, Firebase, Weather API

- Built a weather application displaying current weather details for a selected city.

Personal Portfolio Website | Individual Project
Tech Stack: HTML, CSS

- Developing a responsive portfolio to showcase projects, skills, and certifications.

Smart College Asset & Inventory Management System | Internship Project
Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Figma

- Centralized platform to manage college assets and inventory with role-based access and multi-level request approval.
- My Work – Equipment Requests Module: designed in Figma, built with HTML, CSS, and JavaScript, and connected to the backend.

MIRROR – Personality & Self-Discovery Web App | College Project
Tech Stack: HTML, CSS, JavaScript

- Interactive 20-question quiz that gives users a personalized archetype and trait pattern; fully frontend, with light/dark themes.

RESEARCH & INNOVATION

AI in Recruitment – Research Paper | Team of 5 *2025-26*

- Explored automated screening, hiring efficiency, and AI-related bias.

Impact of Digital Payments – Research Paper | Individual *2024-25*

- Studied UPI, mobile wallets, and their impact on consumers and businesses.

R-CUBED – Innovative Business Model | Team of 5 *2026*

- Proposed a waste management platform connecting waste generators with recyclers.
- Reached the pre-finals of the competition.

LEADERSHIP & CAMPUS INVOLVEMENT

Student Secretary, Shift I | St. Joseph's College

- Supports student coordination and college activities.

Master of Ceremonies

- Hosted college and department programmes and supported event hospitality.

University Examination Duty

- Assisted with practical and theory examination administration.
